Mysore District,
Dated Mysore, the 7th December, 1944.

To
The Director of Public Health
in Mysore,
Bangalore.

Hl 68-44-16

Sir,

Subject:- Water supply and Town Improvement Grants for the year 1944-45

With reference to your Letter No C.141-145 dated 3-11-44 and subsequent reminder thereon calling for statements on the above subject, I have the honour to forward herewith separate statements showing the amounts of grants required for the several Town and Minor Municipalities in Mysore District for the year 1944-45 and to state as follows -

Water supply schemes - Town Municipalities:

Nanjangud:- A total grant of Rs.64,562/- is required for several works as noted in the statement enclosed herewith. The construction of a high level reservoir in Nanjangud at an estimated cost of Rs.20,000/- has been a necessity and due to many other works involving heavy expenditure undertaken in the Municipality it is unable to finance the scheme in full. Therefore, a sum of Rs.10,000/- representing half the estimated cost, is recommended for being granted.

A sum of Rs.6,13/- being the excess owing to the revision of estimate of the annual Maintenance charges for 1943-44 has already been sanctioned by Government in their Order No.L.2123-5/41.58-44-2 dated 5-9-1944.

Gundlupet:- The residents of Gundlupet have been subjected to great hardship and various difficulties owing to scarcity of good drinking water from a very long time. The scheme which should have had its due priority sometime before has lost many chances of getting a suitable grant. Its resources of the Municipality are not adequate to embolden it to venture upon new and costly schemes however useful they may be to the residents of the place. In spite of such handicaps, the Local Municipal Council has agreed to bear half the estimated cost of Rs.18,900/- namely Rs.9,450/-. Therefore, it is requested that a sum of Rs.18,900/- being half the moiety of the estimated cost may be granted by Government. If the entire sum of Rs.18,900/- cannot be granted in lump in the current year, a sum of Rs.6,300/- may at least be sanctioned annually for a period of 3 years.

Krishnarajapet:- Krishnarajapet area is badly in need of a grant of Rs.14,350/- being half the estimated cost for laying 6" pipes for raising the main and to construct a duplicate line of 4" pipes. The Municipal Council have undertaken many other works of Public utility and at present, they have no adequate funds at their disposal to meet the entire cost. Recently, Government had to be approached for according sanction to the payment of a monthly instalment of Rs.600/- xxxxx thx in order to clear the arrears of Rs.5,000/- being the water supply electric current charges. Therefore, a sum of Rs.14,350/- may kindly be granted.

Hunsur:- A total grant of Rs.8,715/- is recommended for sanction, for the completion of a Settlement-Tank and to lay a Sub-line. With a view to keep the health of the town in a standard basis it is necessary to provide good and adequate water-supply to its inhabitants. Both the above mentioned works are going to serve the needs of the townspeople and as such the grant recommended, viz., Rs.4,715/- may kindly be sanctioned.

Minor Municipalities:- Only a sum of Rs.5,000/- has been recommended for being granted either to effect repairs to the existing wells or to sink new ones. Each of the items mentioned in the enclosed statement has its own urgency and these costs have been recommended only after a careful consideration and personal inspection. As such, the total grant of Rs.5,000/- may kindly be sanctioned.

Town Improvement Grants - Town Municipalities -

Against an estimated cost of Rs.2,54,607/- a sum of Rs.41,650/- is recommended to be granted in which the amount required is Rs.73,842/-. Of the total estimated cost, a sum of Rs.32,192/- will be contributed by the concerned municipalities.

Nanjanad:- Against a total grant of Rs.50,632/- required by the Municipality after the completion of the undertaken several works, only a sum of Rs.24,000/- is recommended after a careful selection of pending works. The details of grants required are shown in the statement appended herewith. In order to afford housing facilities to the sweepers of the Municipality a sum of Rs.1,000/- may kindly be granted, considering this as a case of priority.

The other works are meant to improve the town and to afford marketing and living facilities to the residents of the place. As Nanjanad is a centre of pilgrimage and is also a place of frequent visits by dignitaries, maintaining the town in a clean condition and effecting improvements, as to give it a decent appearance are of utmost importance. Therefore grants as detailed in the enclosed statement may kindly be sanctioned.

Gudalur:- The fifth stage of the drainage scheme is going to be undertaken. Government have sanctioned a grant of Rs.15,000/- while the money to be met by Government is, in accordance with G.O.Ms.No. 519/ M.S.8242-3 dated 16-7-1944, Rs.18750/- The balance of Rs.3,750/- may kindly be sanctioned to complete the Government share of the cost.

Coonoor:- The second stage of the drainage scheme is going to be undertaken. Hence a grant of Rs.10,000/- may kindly be sanctioned.

Ootacamund:- Against an estimate of Rs.5,000/- for general improvement of the town, the Municipal Council have agreed to meet half the estimated charges as the works which are proposed to be executed are of a minor character. Hence, only a sum of Rs.1,000/- is recommended for sanction.

Urban reconstruction:- The Municipal Council, Kotagiri have requested for a grant of Rs.2,000/- in order to construct small drains, culverts etc. This small sum of Rs.2,000/- may kindly be sanctioned.

Minor Municipalities:-

The total estimated amount for several works noted in the statement is Rs.76,045. Against this amount, the Municipal Council have agreed to contribute Rs.52,805; and a sum of Rs.23,040/- is recommended for sanction. In some cases, the estimates could not be got scrutinised and sanctioned in time. In some cases, the concerned Municipal Councils desire to take up works on a smaller scale in order to meet the immediate local needs, such as, conservancy, small drains etc. The urgency as well as the necessity of these works have been pressed many a time and I am personally convinced of the several requirements as detailed in the statement. Only such of the cases which are an absolute necessity are recommended for suitable grants.

* In this connection, special mention is to be made about 2 items

4102

of work, viz , the undertaking of drainage scheme at Bannur and the formation of an extension for the "Parivar" community at Periapatna. During the time of the visit of the Minister for Public Health and Local Self Government he was pleased to recommend the urgency thereof and with a view to ~~xxxxxxxx xxx xxxxx~~ improve the health of the residents of the place An estimate for Rs 5,000/- duly sanctioned by the Sanitary Engineer has already been received with his letter No C.172-133 dated 31-10-1944 The financial resources of the Periapatna Municipality are most inadequate to meet even half of the estimated cost of the work If the contribution of one half the estimated cost is insisted upon, the work will have to be post-poned , As the formation of an extension improves with the lay-out of the town as well as the health of a good number of poorer classes of people of the place, I request that the entire sum of Rs.5,000/- may, as a special case, be sanctioned.

The estimate for Rs.2,120/- for fitting up the pond near Edica at Anchekadi Road sanctioned in G.O.No.L 6512-5/ML.71-43-5 dated 12-1-43 has been revised for Rs.3,600/ by the Sanitary Engineer in his letter No 445/43-44 dated 1-10-1943 The excess cost of Rs.1,480/- is to be shared by the Municipality and the Government in equal proportions Hence Rs.7,40/- being half the excess cost of the estimated value may kindly be sanctioned.

As regards Bannur, there have been repeated representations to Government urging for granting them many Civic ~~xxxxxxxxxxxxxxxx~~ and this question is being talked ons by one, and providing the place with drains is one of them. The drainage system for Bannur has been a long-felt necessity and an estimate for Rs.9d,760/-,has been prepared by the Sanitary Engineer and approved by you. The proposals as regards the expenditure together with the connected estimates etc , has already been sent to your Office with this Office letter bearing No.Bn-C-134/44-5 dated 8-11-1944. Therefore, half the estimated amount be sanctioned to be met out of the Town Improvement grants, reserving a specific sum for this purpose each year so that the entire scheme may be completed within a stipulated period as already resolved by the Municipal Council at their meeting held on the 22nd October 1944.

I have the honour to be,
Sir,
Your most obedient servant,

Sd/- C M.H. Ranjoun Singh,

DEPUTY COMMISSIONER,
Mysore District

M E M O
